**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

- 5 Claim 1 (currently amended): A CD drive comprising:
- a upper cover having a track, the track having a curved section;
  - a disk tray installed below the upper cover in a slidable manner;
  - a clamp installed on the upper cover in a moveable manner;
  - a push piece installed on the disk tray, one end of the push piece
  - 10 pivotally connected to a first side of the disk tray; and
  - a guiding rod having a first end fixed on the push piece, and a second end
  - slidably installed in the track;
  - wherein when the disk tray slides in or slides out of the upper cover, the
  - guiding rod slides along the track to drive the push piece to push the
  - 15 clamp upward so as to prevent the clamp from scraping an optical disk,
  - and when the disk tray slides out of the upper cover, the track drives the
  - guiding rod to move to the first side so that the push piece rotates to the
  - first side to push the clamp upward, and when the disk tray slides out of
  - the upper cover and the optical disk has left the underside of the clamp,
  - 20 the track drives the guiding rod to move to an opposite side of the first
  - side so that the push piece comes back to the former position.

Claims 2-4(cancelled)

- 25 Claim 5 (original): The CD drive of claim 1 wherein the track is a groove  
etched into the upper cover.

Claim 6 (original): The CD drive of claim 5 wherein the push piece has a hole
